Popular Repositories

VCF-Simplify *(https://github.com/everestial/VCF-Simplify)*
Python – Creator & Owner
2018

A python parser to simplify and build the VCF (Variant Call Format).

This repository has 12 stars and 9 forks. If you would like more information about this repository and my contributed code, please visit the repo on GitHub.

phase-Extender *(https://github.com/everestial/phase-Extender)*
Python – Creator & Owner
2018

A python program that uses ReadBack phased haplotypes in population of samples and returns extended haplotype blocks.

This repository has 1 star and 2 forks. If you would like more information about this repository and my contributed code, please visit the repo on GitHub.

ASE-CADG *(https://github.com/everestial/ASE-CADG)*
Python – Creator & Owner
2018

Pipeline for ASE (allele specific expression) using competitive alignment to diploid genome

This repository has 2 stars and 0 forks. If you would like more information about this repository and my contributed code, please visit the repo on GitHub.

phaseRB *(https://github.com/everestial/phaseRB)*
Python – Creator & Owner
2018

A tool for running readbackphasing on VCF using BAM (reference genome aligned genome or RNAseq reads).

This repository has 1 star and 1 fork. If you would like more information about this repository and my contributed code, please visit the repo on GitHub.

MathCollections *(https://github.com/everestial/MathCollections)*
Python – Creator & Owner
2019

Collection of several math problems and their coding solutions

This repository has 0 stars and 1 fork. If you would like more information about this repository and my contributed code, please visit the repo on GitHub.

Contributions

churchill-lab/g2gtools
everestial has contributed for churchill-lab/g2gtools with 3 commit(s)

secastel/phaser
everestial has contributed for secastel/phaser with 1 commit(s)

everestial/phaser
everestial has contributed for everestial/phaser with 1 commit(s)

everestial/VCF-Simplify
everestial has contributed for everestial/VCF-Simplify with 1 commit(s)

everestial/g2gtools
everestial has contributed for everestial/g2gtools with 1 commit(s)

About This Résumé

This résumé is generated automatically using public information from the developer's GitHub account. The repositories are ordered by popularity based on a very simple popularity heuristic that defines the popularity of a repository by its sum of watchers and forks. Do not hesitate to visit Kiran N' Bishwa's GitHub page *(https://github.com/everestial)* for a complete work history.
